

Queensland Mental Health Commission

Strategic Plan 2023–2027

Our vision

Queenslanders working together to improve health and wellbeing

Our purpose

Drive ongoing reform towards a more integrated, evidence-based, recovery-oriented mental health, alcohol and other drugs, and suicide prevention system in Queensland

Who we are

The Queensland Mental Health Commission (the Commission) was established on 1 July 2013 by the *Queensland Mental Health Commission Act 2013* (the Act).

The Commission's role under the Act is to drive ongoing reform towards a more integrated, evidence-based, recovery-orientated mental health, alcohol and other drugs, and suicide prevention system in Queensland. The Act sets out the Commission's functions, which underpin the Strategic Plan and program of work.

As an agency in the health portfolio, the Commission works alongside the Department of Health while retaining its independence as a statutory body. It reports through the Mental Health Commissioner directly to the Minister for Health, Mental Health and Ambulance Services and Minister for Women and receives advice and recommendations from the Queensland Mental Health and Drug Advisory Council.

The Commission sets whole-of-government mental health, alcohol and other drugs, and suicide prevention policy through *Shifting minds: The Queensland Mental Health, Alcohol and Other Drugs, and Suicide Prevention Strategic Plan 2023–2028*, and its supporting plans *Every life: The Queensland Suicide Prevention Plan 2019–2029 (Every life Phase Two)*, and *Achieving balance: The Queensland Alcohol and Other Drugs Plan 2022–2027 (Achieving balance)*.

Our commitment to First Nations peoples

The Commission respectfully acknowledges Aboriginal and Torres Strait Islander people as the traditional custodians of Queensland's land and seas. We recognise that it is our collective effort and responsibility as individuals, communities and governments to ensure equality, recognition and advancement of Aboriginal and Torres Strait Islander Queenslanders across all aspects of society and everyday life. We are committed to supporting the Queensland Government's First Nations reform agenda, including the *Path to Treaty* and commitments under the *National Agreement on Closing the Gap*. We are committed to walking together on our shared journey of Reconciliation.

Our commitment to people with lived experience

The Commission is committed to achieving better lives and outcomes for people living with mental illness, problematic alcohol and other drugs use, and those impacted by suicide, as well as their families and support people. We are committed to promoting and embedding lived experience leadership within a mental health, alcohol and other drugs, and suicide prevention system that is evidence-based, person-centred, trauma-informed and supportive of human rights.

Our challenges

- **Reform influence:** The Commission actively works across government and other sectors to progress the development and implementation of the whole-of-government strategic plan and subplans, requiring collaborative relationships with all relevant State Government agencies and key stakeholders.
- **Governance:** The ability of the Commission to perform effectively and efficiently in a complex environment with finite resources requires robust governance and accountability systems.
- **Expectations:** The Commission ensures we have the capacity and capability to meet community and sector expectations and achieve our strategic goals within allocated resources.
- **Increased demand:** The Commission considers and responds to the impact of COVID-19, natural disasters, and other challenging experiences on people's mental health and wellbeing, and the increased demand for service delivery and reform.
- **Workforce:** The Commission examines workforce challenges and identifies policy settings that support the broader health and human service systems to recruit, retain and develop an appropriate workforce to meet the broad needs of the sector.

We support Queensland Government's objectives for the community

Good jobs

Good, secure jobs in our traditional and emerging industries.

Great lifestyle

Protect and enhance our Queensland lifestyle as we grow.

Better services

Deliver even better services right across Queensland.

Investing in skills

Ensure we have a skilled and capable workforce to deliver leadership, policy and strategy.

Growing our regions

Drive investment in our regions to support the diverse needs of Queenslanders.

Backing our frontline services

Supporting investment in best-practice service delivery.

Honouring and embracing our rich and ancient cultural history

Embed First Nations perspectives and expertise in policy and process.

Keeping Queenslanders safe

Promote and support the wellbeing of Queenslanders.

Our opportunities

- Address prevention and health promotion, social determinants and health equity so all Queenslanders can reach their highest level of health and wellbeing.
- Elevate the role of lived experience in policy, planning, service delivery and evaluation, including people living with mental-ill health, alcohol and other drug issues, those at risk of suicide, and other vulnerable populations, as well as their families, carers and kin.
- Refresh the reform agenda through implementation of a renewed *Shifting minds 2023–2028*, *Every life Phase Two* and *Achieving balance*.
- Promote community-based service delivery, prevention and early intervention as essential elements of reform.
- Strengthen cross-sector partnership, collaboration and investment in mental health beyond the Department of Health.
